

## Project Design Phase-I

### Solution Architecture

Date	15 October 2022
Team ID	PNT2022TMID46361
Project Name	Inventory Management System for Retailers
Maximum Marks	4 Marks

#### Solution Architecture:

Solution Architecture shows the AWS services and components used to create an SAP landscape inventory that can be queried using Amazon Athena.

Its goals are to:

- Find the best solution in host agent to stock Management.
- Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.
- Define Automation, Transformation, Loading, and Integration.
- Provide specifications according to which the solution has maintained a stack.

#### Example - Solution Architecture Diagram:
